PORTAGE, MI — June 17, 2009 - Manatron, Inc. a global leader in providing integrated, enterprise-level property tax and records management solutions for state and local governments, announced that it has recently installed its GRM Recorder solution in the Beaufort County, North Carolina Register of Deeds office. This project includes an upgrade to the office's current server as well as a move from Oracle database to Microsoft SQL Server.

"We have been running on old legacy code from Manatron and, as a result, were not benefiting from the latest functionality and enhancement releases available through Manatron's current software platform," said Jennifer Whitehurst, Beaufort County Register of Deeds. "This upgrade to GRM Recorder was a must have for us and we are excited to experience how this change will enhance our office and better serve the public."

"Beaufort County is our second North Carolina customer to upgrade to GRM Recorder," said Greg Efrein, Manatron VP of Records Management. "We continue making large investments in North Carolina and hope this will lead to further upgrades of both current and new clients moving forward to our state-of-the-art GRM Recorder platform."

About Manatron, Inc.: Manatron, a privately-held company and an investment of private equity firms Thoma Cressey Bravo, Inc. and Thoma Bravo, LLC, provides software and services for state and local governments to completely, fairly and efficiently assess real and personal property, and to bill and collect the related property taxes in their jurisdictions. Manatron's software manages the entire property life cycle, which includes deed recording, land records, GIS (Geographic Information System) integration, valuation, assessment administration, personal property, business licenses, cashiering, tax billing and collection, delinquents and tax sales and e-government. Professional services consist of data conversions, installation, training, project management, hardware maintenance, forms processing and printing, consulting and appraisal services. Manatron is headquartered in Portage, Michigan and has offices throughout the United States. Manatron currently serves over 1,400 customers and manages approximately 30 million parcels.

About GRM Recorder: Manatron GRM Recorder is a powerful and flexible comprehensive GRM records management solution utilizing the latest technology. GRM Recorder -- formerly known as A2 -- allows recording officials to efficiently manage a wide variety of document types while

improving customer service and decreasing operating costs. Built on the Microsoft .NET platform, the solution manages business processes through configurable workflows, reports and templates. GRM Recorder allows recording officials to manage all of the following document groups: real estate, birth, death, marriage, military discharge, notaries, courts, correspondence and numerous others. In addition, the new generic document module also allows an infinite number of various additional document groups to be filed and processed in the system.
